

Part Number: 2-1151

Color: Black
Nominal OAG: 0.160" +/- .015
Plies: 1
Fabric: Interwoven Polyester
Minimum Pulley Diameter: 3"
Top Surface: Smooth PVC
Bottom Surface: Brushed
Compound: PVC
Work Tension: 150 lbs. PIW
Elongation: Less than 2%
Weight P.I.W. / Ft.: .090 lbs.
Working Temperature: 20F to 180F
Joining Method: Finger Splice; Lacing

Description: B1500 COS

Features: 2-1151 features the popular interwoven carcass. The bottom surface is brushed clean to lower the coefficient of friction. It offers high strength, tear resistance and low stretch. The belt's construction lends itself to high lace retention.

Applications: B1500 COS is a medium duty general purpose conveyor belt that can be used in most industries including recycling, package conveying, fruits, vegetables and baggage.
